

Compact Ozone generator

Fridge-sized air purifier

The GH-2138 is a compact ozone generator that is perfect for reducing food spoilage and eliminating foul odors in your refrigerator. The timer and low power consumption ensures continual and long lasting freshness. This unit will help to eliminate the cross-contamination of food odors as well. This unit is small and it won't take up very much space in your fridge!

Features

- Keeps food fresh longer
- Battery operated, no cords necessary!
- Batteries last up to 150 days
- No expensive filters to change
- Compact size
