

Small Ozone Injection System

1.5 gpm Ozone Injection System

This small ozone injection system is great for treating small flows or recirculating volumes less than 50 gallons. System can be setup in the field or lab within 5 minutes. Excellent for laboratory or pilot study applications.

Features

- Low Cost Rental Option
- Long term rental prices available
- treats up to 1.5 GPM
- portable - lift handle for easy transport
- stainless steel & Kynar injection system
- includes pump, venturi, contact tank & degasser
- can be set on surface or secured to a wall

Product ID: **H2O-MINI Rental**
Stock: **Yes**

Shipping Weight:	40 lbs

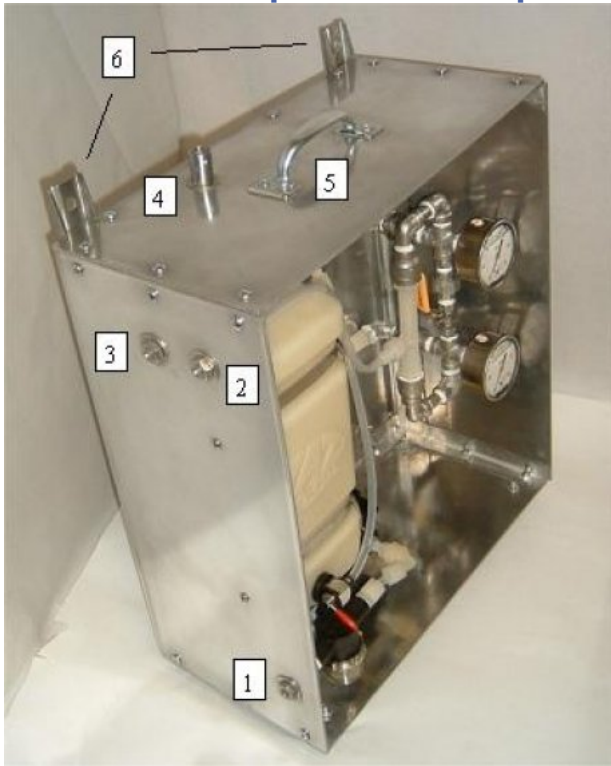

Product Specifications

Flowrate	0.80 - 1.5 GPM depending on pump size
Contact Tank	Size - 1 gal (3.785 liters), Constructed of HDPE
Chassis Construction	12 gauge Aluminum
Pressure Gauges	liquid filled to show pressure differential across venturi
Water In/Out Connection	1/4" FPT
Ozone Gas Connection	1/8" FPT
Strainer/Filter	Included - 100 mesh to filter out debris
Venturi Bypass	Included - Stainless steel & PVC construction
Pump Feature	Self-priming diaphragm pump (primes up to 8-ft)
Venturi	Mazzei 287 Kynar Construction

Weight

20-lbs

H2O-Mini Component Description

(1) 1/4" FPT water inlet, (2) 1/8" FPT ozone inlet, (3) 1/4" FPT water outlet, (4) 1/4" FPT ozone vent, (5) handle, (6) mounting brackets

H2O-Mini Front Component Descriptions

(1) Water Inlet, (2) 40 mesh filter, (3) 1.1 GPM pump, (4) Kynar Injector, (5) Injector bypass valve, (6) Outlet pressure gauge, (7) Inlet pressure gauge, (8) Ozone gas inlet, (9) Air/ozone vent, (10) Mounting feet, (11) 1-gallon contact tank
