

100-SCFH Oxygen Concentrator

100 SCFH Oxygen Concentrator System

OG-100 Oxygen concentrator offers a reliable low cost method of providing oxygen feed gas for all your ozone generation needs. Using an oxygen concentrator eliminates the need for bottled oxygen and is much more cost effective and convenient.

Features

- 75 SCFH Oxygen at 95 %
- Dependable Operation
- Durable Construction
- Low Operating Cost
- Automatic unattended operation
- Easy to install and maintain

Product ID: **OG-75**
 Lead Time: **1 week**
 Price: **\$6,500.00**

Specifications

Oxygen Output

Flowrate	75 SCFH
Purity	Up to 95%
Pressure	45-60 PSI
Dewpoint	-100-deg F

Feedgas Requirements

Air Flow	17 CFM
Pressure	90 PSI
Quality	Clean dry plant air per ISO specifications 5.7.5
Temperature	Air must be cooler than 100-deg F
Ambient Temperature	40-100-deg F
Storage tank	Oxygen Storage tank is necessary and available from Ozone Solutions
Power Requirements	120 Watts
Dimensions (W x D x H)	21-in x 21.5-in x 67-in
Weight	310 lbs

System Configuration

Typical System Configuration

Typical system configuration shown.
