

Ozone sensor with bright alarm light

Notify an entire room immediately!

The SL series safety indicating lights provide a quick visual reference to the ozone concentration within its surrounding area. Green light is on when ozone level is below 0.1 PPM and switches to red when ozone level exceeds 0.1 PPM.

Features

- Ready to use upon arrival (just plug in)
- Stackable color lenses in multiple colors
- Wall mountable
- visible from over 150-ft away
- Power cord included

Product ID: **SL-2**
Lead Time: **3 days**
Price: **\$895.00**

Specifications

Range	0.03 - 0.1 ppm
Accuracy	+/- 20%
Sensor:	HMOS Technology
Indicator	Red light when ozone above 0.1 ppm
Power requirements	120V / 60Hz
Size	5.5 W x 3.5 D x 22 H
Weight:	4.3 lbs
Warranty	1 yr
Visibility	150-ft
Enclosure:	Sealed ABS Plastic
