

MOBILEZONE SERIES

The most efficient mobile ozone generator in the market

FEATURES BOTH GAS AND DISSOLVED OZONE CAPABILITIES

FEATURES OF TS SERIES:

FEATURES

- Turnkey ozone generation system
- Integrated oxygen concentrator and compressor
- 0 to 40 g/hr of ozone production
- Capable of producing ambient and dissolved ozone
- Contacts for remote start
- Water flow from 1 to 25 GPM
- HMI Touchscreen controls
- Ready to use upon delivery
- Available for rent or purchase

MOBILEZONE SERIES

Standard Mobilezone Ozone Injection System Sizes

Mobilezone Systems	Ozone Output	Ozone Dosage Rates	Max Flow Rate
Mobilezone-20	20 g/hr	4 ppm @ 23 GPM - 30 ppm @ 3 GPM	25 GPM
Mobilezone-40	40 g/hr	8 ppm @ 23 GPM - 30 ppm @ 6 GPM	25 GPM

Optional Equipment	Description
As-500 Dissolved Ozone Monitor	Monitors and controls ozone level in the water (ppm)
ORP Meter	Monitors ORP level in water, will also control ozone level with indirect reading
Remote Ambient Ozone Monitor	Monitors ozone levels near water point of use for safety purposes
50 Hz Power	Necessary for overseas use
